Synopsis	“How to Explore the Bible” is a four-session course to provide an overview of the Old Testament. The participants will learn that from the beginning God created the universe and human imagers to rule the earth as his representatives. Throughout the Old Testament era, God’s rebellious and idolatrous people were guided by covenant requirements, and judges, kings, priests and prophets. The promise of a King to one day rule and reign perfectly over His people points to the coming of Christ Jesus the servant King in the New Testament.
